

Stud & Track Solutions for Showground Precinct Apartments

Showground Pavilions

Supporting the major Sydney Showground Precinct development, Intex supplied key Stud and Track systems supporting the new residential apartments.

Manufactured from high tensile galvanised steel, our Stud and Track systems are rigorously tested for acoustic, corrosion and fire performance, delivering reliable framing solutions for your next project.

[View Project](#)

Engineered for structural integrity:

Fully compliant with the Building Code of Australia (BCA) and the New Zealand Building Code (NZBC).

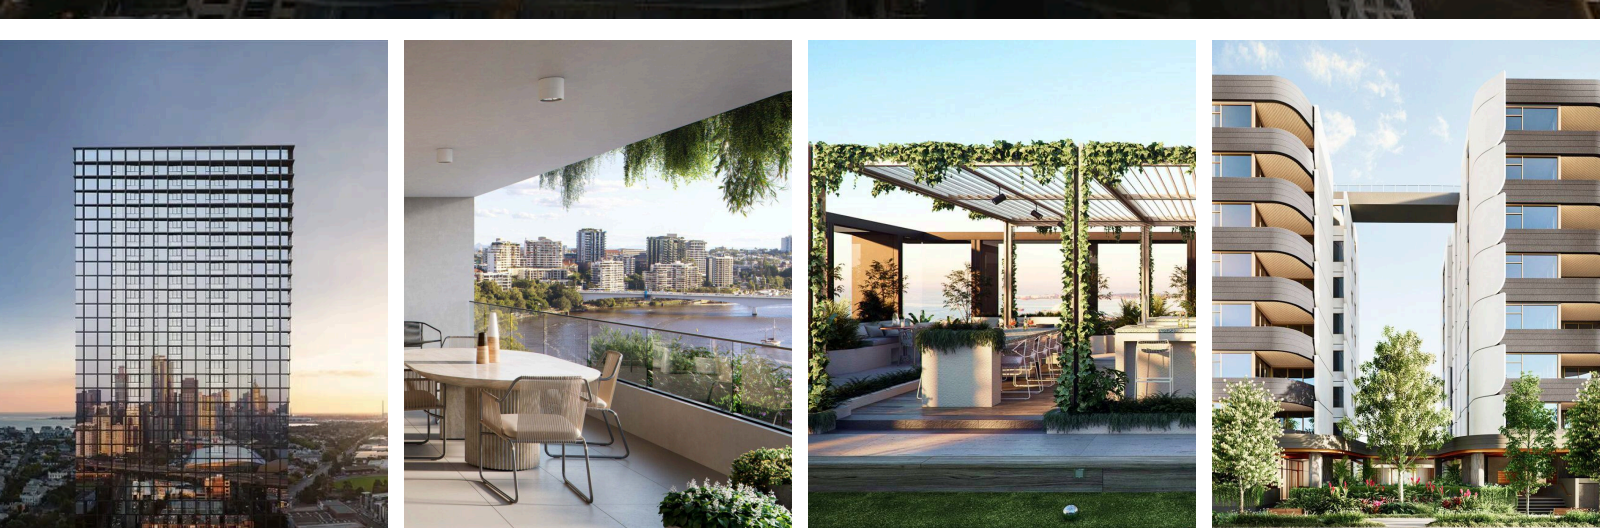

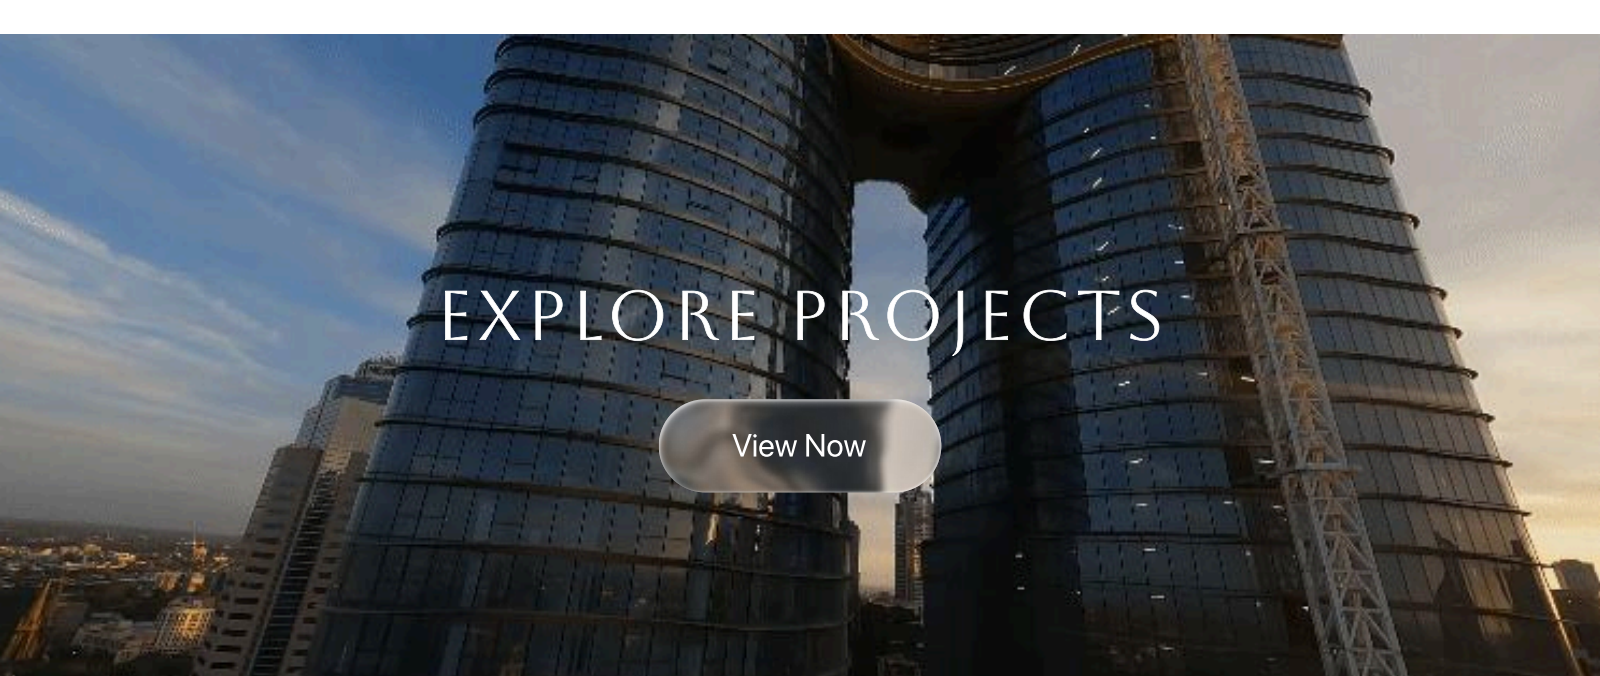

Manufactured from high tensile galvanised steel for superior strength, durability and corrosion resistance. Suitable for use in compliant fire-rated wall systems.

The versatile system built in:

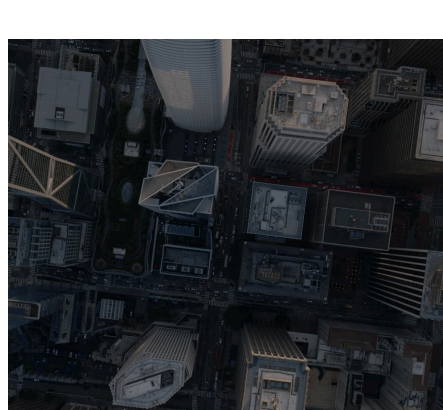

Available in a wide range of profiles and base metal thicknesses to suit virtually any application.

Hemmed-edge light and medium gauge studs help improve installer safety by reducing the risk of cuts.
